# Prime Activities

Our Prime Activities are the real show-stoppers! These activities are the ones visitors have never seen before or are rarely able to actually participate in.....

Our Prime Activities are the result of the very high bar we set ourselves in creating one-of-a-kind experiences. Our main driving force is to bring history to life by providing activities that are as close to the real experience as we can safely make them.

We also want to make them inclusive to all abilities and ages so they are accessible to everyone. We're excited by them and we hope you will be too!

All of the equipment is quick and easy to set up but engages a number of participants at any one time, increasing their impact.
